	Report
Name of Activity	Talk on Common Gynaecological Disorders
Date	16 th September 2021
Venue	Seminar Hall
Organized by	Management Department
Name of Resource Person	Dr. Malvika Sabarwal, Gynaecologist and Obstetrician, at Apollo Spectra Hospitals
Participated by	BBA female students
Activity Coordinator	Ms. Sonali Chauhan
Content	<p>Women are not much aware of their health issues this can become worse for their body. Importance of maintaining a good body is the key component of a good mental health. Most of the women are shame and having a stereotypic view on visiting a Gynecologist. In the current world each and every women must be aware about their body issues and health. By understanding the importance of health, Mangalmai Institute of Management and Technology brought to the students a talk on common gynaecologist disorders.</p> <p>Dr. Malvika Sabarwal, Gynaecologist and Obstetrician, at Apollo Spectra Hospitals spoke about the common gynecological issues faced by young women. Including PCOD, irregular menstruation, and thyroid problems. She gave insights on different gynecological diseases such as bacterial and fungal infections, cancer of ovaries, breast, cervix, and so on.</p> <p>She described about each and every health issues very clearly to the students. The session was very helpful to the students to know about the importance of women's health and body issues. The students were aware of the value of treatment and the importance of visiting a Gynecologist. The students then interacted with Dr. Malvika for one hour asking questions and clarifying doubts about their health issues.</p>
Objective	<ul style="list-style-type: none">• To sensitize female students, faculties & staff about Gynaecological health and hygiene.• To provide insights into managing their body better.
Outcome of Activity	Female Students, staff and faculties are now much more aware about Gynaecological health. In case of an issue or disorder they know how to respond on it.
