

### **Lesson Plan**

**Program:** BBA **Semester:** 4<sup>th</sup> **Course Code:** BBA 405 **Course Name:** Research Methodology

## **Course Objectives**

(CO1): Understand the concept / fundamentals of research and their types.

**(CO2):** Understand the practical application of various research techniques.

(CO3): Understand the importance of scaling & measurement techniques and sampling techniques.

**(CO4):** Understand the importance of coding, editing, tabulation and analysis in doing research.

**(CO5):** Understanding and applying the concept of statistical analysis which includes ANOVA technique and technique of report writing.

**Session Duration:** 60 minutes

Participants: BBA 4<sup>th</sup> Semester/2<sup>nd</sup> Year

## Entry level knowledge and skills of students

i. Students must have basic knowledge of concept of research.

ii. Students must have knowledge of statistics.

# **Equipment required in Classroom/ Laboratory/ Workshop**

i. White board

ii. Projector

### **Assessment Schemes**

S. No.	Criteria	Marks (100)
1	CCSU End Term Examination	75
2	Internal Evaluation Scheme	25
2(a)	Teacher Assessment (Continuous Evaluation) (Any 2 & attendance)	20
2(a)(i)	Assignment I	10
<b>2</b> (a)(ii)	Assignment II	10
2(a)(iii)	Attendance (compulsory)	5

**Course Outcomes** (starting with action-oriented observable and measurable verb)

(CO1): Remember and comprehend basic concepts Research Methodology

(CO2): Develop understanding of research design.

(CO3): Develop understanding of sample design and apply this knowledge for business.

(CO4): Understand and analyse the knowledge of Processing & Analysis and Presentation of Data
