Report	
Name of Activity	Certificate Course on Share Market
Date	11-03-2024 to 05-04-2024
Venue	ClassRoom, B Block, Mangalmai Institute of Management and Technology
Organized by	Department of Management, Mangalmai Institute of Management & Technology
No. of Participants	71
Objective	<p>The objective of the Certificate Course on Share Market is to provide participants with a comprehensive understanding of the principles, practices, and intricacies of the share market. Through this course, participants will:</p> <ol style="list-style-type: none">1. Gain a thorough understanding of the functioning of the share market, including its structure, participants, and regulatory framework.2. Learn about different types of financial instruments traded in the share market, such as stocks, bonds, and derivatives, and their characteristics.3. Understand the role and importance of stock exchanges in facilitating trading activities and maintaining market integrity.4. Familiarize themselves with various trading platforms and brokerage accounts used for buying and selling securities.5. Develop skills in analyzing and managing risk in investment portfolios, including assessing risk-return profiles and implementing risk management strategies.6. Learn fundamental and technical analysis techniques to evaluate investment opportunities, including reading financial statements, analyzing company fundamentals, and interpreting market trends.7. Explore different investment strategies and approaches tailored to meet individual investment goals and time horizons.8. Understand the psychological aspects of trading and investing, including managing emotions and cognitive biases to make informed decisions.9. Gain insights into the regulatory framework governing the share market and the compliance requirements for market participants.10. Apply theoretical concepts to real-world scenarios through case studies and practical exercises to enhance practical understanding and decision-making skills. <p>Overall, the objective of this certificate course is to equip participants with the knowledge, skills, and confidence to navigate the dynamic and complex world of the share market effectively.</p>

<p>Content</p>	<p>Day 1: Introduction to Share Market The course kicked off with an overview of financial markets, focusing on the share market. Participants learned about the significance of the share market in the economy and familiarize themselves with basic terminology such as stocks, shares, and indices.</p> <p>Day 2: Understanding Stock Exchanges This session explored the types of stock exchanges and how they function. Students gained insights into major stock exchanges around the world and understood the role of regulatory bodies overseeing these exchanges.</p> <p>Day 3: Types of Securities We dived into the differences between stocks, bonds, and derivatives. The session introduced various types of stocks, including common, preferred, and blue-chip stocks, and explained the features of bonds and provided an overview of derivative instruments like options and futures.</p> <p>Day 4: Fundamental Analysis Participants were introduced to fundamental analysis, learning to read and understand financial statements such as the balance sheet, income statement, and cash flow statement. The session covered key ratios and metrics like P/E ratio, EPS, and ROE, and emphasized the importance of economic indicators and news in fundamental analysis.</p> <p>Day 5: Introduction to Technical Analysis This session covered the basics of technical analysis, including various chart types such as line, bar, and candlestick charts. Key technical indicators like RSI, MACD, and moving averages were introduced, along with how to read and interpret stock charts.</p> <p>Day 6: Advanced Technical Analysis Building on the previous session, students learned about advanced chart patterns such as head and shoulders, flags, and triangles. The session also covered trend analysis, support and resistance levels, volume analysis, and how to use technical analysis alongside fundamental analysis.</p> <p>Day 7: Introduction to Trading Strategies This day provided an overview of different trading strategies, including day trading, swing trading, and value investing. It discussed risk management techniques, setting up trading goals and plans, and the psychological aspects of trading.</p> <p>Day 8: Introduction to Investment Strategies</p>
----------------	---

Participants explored long-term versus short-term investing, growth investing versus value investing, and dividend investing strategies. The session also covered sector-specific investment strategies.

Day 9: Building a Stock Portfolio

This session emphasized the importance of portfolio diversification. Students learned about setting investment objectives, portfolio construction techniques, and the processes involved in monitoring and rebalancing a portfolio.

Day 10: Risk Management and Hedging

Focusing on understanding different types of risks in the stock market, this session covered techniques for managing investment risk and introduced hedging strategies using options and futures, as well as insurance products for risk management.

Day 11: Behavioral Finance Participants delved into the world of investor behavior, exploring common biases in investment decision-making and understanding the implications of behavioral finance in stock market analysis.

Day 12: Alternative Investments-I This session provided an overview of alternative investment options such as real estate, commodities, and cryptocurrencies, discussing the pros and cons of these investments.

Day 13: Alternative Investments-II Continuing from the previous session, students learned about diversifying portfolios with both primary and alternative assets, exploring strategies to balance risk and return.

Day 14: Practical Application and Case Studies-I Participants analyzed real-world case studies, applying fundamental and technical analysis techniques to understand and evaluate real investment scenarios.

Day 15: Practical Application and Case Studies-II Building on the previous day's work, students developed trading and investment strategies based on case studies, applying these strategies in a targeted approach.

Day 16: Final Project and Review The course concluded with participants presenting their final projects. The session included a comprehensive review of key concepts and topics covered throughout the course, followed by a Q&A session and wrap-up.

This content outline was comprehensive and could be adapted based on the specific requirements and objectives of the certificate course. It provided participants with a solid foundation in share market fundamentals, investment strategies, risk management techniques, and regulatory compliance.

Assessment	At the end of the course on ‘Share Market’ there was a MCQ assessment assigned to assess the understanding level of the students.
Outcome of Activity	The outcome of the Certificate Course on Share Market is to empower participants with the knowledge, skills, and confidence to effectively navigate the share market, manage investments prudently, and achieve their financial goals.

Resource Person’s Profile

Dr Anuradha Singh

Dr Anuradha Singh is currently serving as an Assistant Professor at Mangalmai Institute of Management and Technology (MIMT). Recently, she was awarded her PhD from the Department of Economics and Finance at Birla Institute of Technology and Science, Pilani Campus. Her PhD thesis is titled “An Empirical Investigation of Socioeconomic Inequality and Intergenerational Mobility in India.” Her PhD was funded by the University Grants Commission (UGC) of India under the Junior Research Fellowship (JRF) scheme. She is active in research and has attended reputed seminars/workshops during her research work. She has attended a Master’s level course on Socioeconomic inequality at the University of Chicago and has also been invited to attend the World Bank Youth Summit, 2018 and World Inequality Conference, 2021. The loss of interest in studies and the increase in the number of school dropouts in India is a matter of serious concern for her. Her other research interests include Social Economics, Labour Economics, and Development Economics.

You can reach Anuradha at Anuradha.Singh@mimt.org
