Activity In-charge	Dr.Azad Singh, (Associate Professor, MIMT)
Resource Persons	Dr.Azad Singh, (Associate Professor, MIMT)
Objectives	<p>The following were the main objective of the workshop:</p> <ol style="list-style-type: none">1. Understand Fire Behavior: Participants learned about the different types of fires, how they start, propagate, and the factors influencing their behavior.2. Familiarization with Firefighting Equipment: Hands-on experience with firefighting tools and equipment such as fire extinguishers, hoses, nozzles,apparatus, and protective gear.3. Fire Suppression Techniques: Learned about various firefighting techniques such as direct attack, indirect attack, and defensive strategies for different types of fires including structural fires, wildfires, and industrial fires.4. Hazard Recognition and Mitigation: Identified potential fire hazards in different environments and taking preventive measures to mitigate risks.5.Teamwork and Leadership: Developed effective teamwork skills and leadership qualities necessary for efficient coordination during firefighting operations.
Content	<p>The MIMT organized a Staff Development activity named Training On Fire Fighting for their teaching and non-teaching staff member. Firefighting is a critical skillset that demands knowledge, physical endurance, and mental acuity. Whether it's in a professional capacity or for personal safety, being trained in firefighting techniques can save lives and property. This comprehensive training program aims to equip participants with the necessary skills and knowledge to effectively respond to fires of various types and intensities. Dr. Azad Singh was the trainer for the firefighting activity. Dr. Singh explained about the importance of life and how life can be save in case of fire under any circumstances, along with types of fire extinguishers, demonstration was provided to staff members. Overall this firefighting training program aims to empower participants with the knowledge, skills, and confidence needed to respond effectively to fire emergencies. By combining theoretical knowledge with practical training exercises, participants will be better prepared to mitigate fire hazards, protect lives, and safeguard property in various settings. Firefighting is not just a profession but a crucial life-saving skill, and this training program endeavors to equip individuals with the tools they need to face this challenge head-on. A total 24 employees from different domain have been participated in this</p>
